

# Creatures Big & Small

There are many different creatures in our oceans and on our beaches.  
Use the spaces below to draw and label creatures you might find in  
each different area on our coastline.

On the shoreline

In a rock pool

In the ocean

Name: \_\_\_\_\_

# Creatures Big & Small

For each of the following creatures, cross ~~X~~ the statements that you think are false.

## Shark

- I have many bones.
- I have over 30,000 teeth in a lifetime.
- My skin feels like sandpaper.

## Sea Turtle

- Most of my species are endangered.
- I can live up to 150 years.
- I am a mammal.

Sometimes you can find rubbish at the beach. Circle the items below that you think could be harmful to ocean creatures.

Next time you go to the beach, what can you do to make sure that we keep our beach clean and our oceans safe for our creature friends?

Name: \_\_\_\_\_

# Reading the signs

Draw a line to connect each of the signs to their meaning.

Tip: Two different signs can mean similar things.

Sharp coral can cause injury.  
Watch where you step.

Beware of bluebottles  
(stinging jellyfish)

Danger!  
Strong currents in this area.

No swimming. Dangerous  
conditions. Beach is closed.

Warning!  
High surf and big waves.

Warning! Dangerous shore break.  
Waves breaking in shallow water.

Warning! Shark sighted in area.

## Signs at your school

There are signs everywhere to let us know about something important and warn us about things that might be dangerous. How many signs can you find at your school? Go for a walk and see how many you can count. Record your number in the box.
