

Lifesavers at the beach!

Lifesavers are at the beach to help you. They put the red and yellow flags in the safest place for you to swim at the beach. Make sure you come and say hi when you see us at the beach! Colour in the lifesavers using red and yellow pencils.

Always swim
between the red
and yellow flags
so lifesavers can
see you

Lifesavers help
people when they
get into trouble in
the water
