

# UNDERWATER HAZARDS

Watch the video and then answer the questions below.

Watch the video and then complete the sentences below using the words from the box.

Slowly    Depth    Deep    Rocks    Shallow    Bank    Friend    Capacity    Fast

First of all know your \_\_\_\_\_.

If you are around the rivers, or a dam, something to think of is the \_\_\_\_\_ of the water.

You might not know how \_\_\_\_\_ the water is, so it is something to consider before entering.

There could be some \_\_\_\_\_ and you could hit onto the rocks and get injured.

It's always a good idea to enter the dam and river from the \_\_\_\_\_.

Move \_\_\_\_\_ at a comfortable pace.

Always go with your \_\_\_\_\_ to swim so that they can watch out for you and you can watch out for them.

What is the difference between the words shallow and deep?

What sort of hazards might you find on the bottom of a river, lake or dam?
